First edition, 2026.

This is a fictional market. Names, prices, receipts, and shopping situations are invented for educational entertainment. They are not real product offers or financial advice.

Children may ask a trusted adult for help reading the instructions. No purchases or internet access are needed.

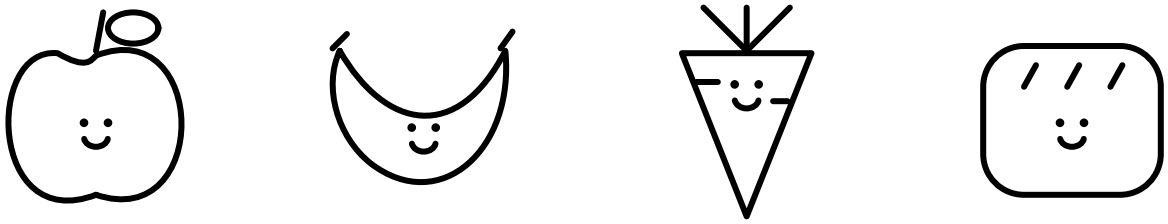

Welcome, Market Helper!

The stalls are open, and the price tags are ready. Can you help check the shopping?

Read the shelf tags, work out a plan, then explain your answer. A pencil and eraser are all you need.

Some puzzles have several steps. Slow down. You can circle prices, draw items, or use repeated addition.

A mistake is a chance to check a clue. Careful thinking matters more than speed.

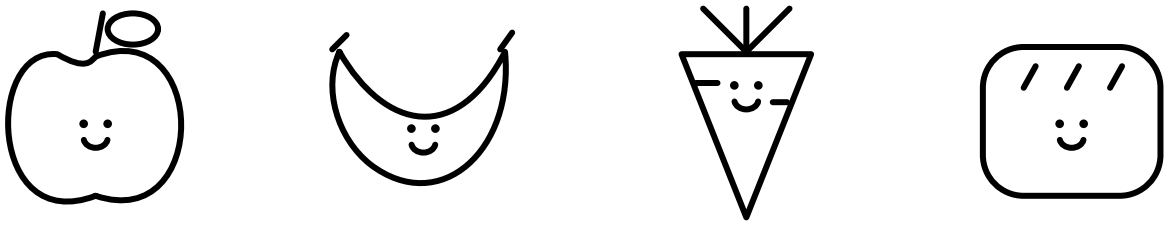

Your Money Toolkit

All prices use US cents, shown by ¢. 100¢ = $1. 200¢ = $2. 500¢ = $5. 1000¢ = $10.

All fictional prices include tax. There are no extra fees, discounts, or hidden costs. Each shelf tag gives the price of ONE item unless a receipt line says otherwise.

A total adds all purchased items. Change is the amount paid minus the total. A budget is the most money available to spend.

TWO DIFFERENT items means two different shelf products, one of each. A line total for BOTH items includes both copies.

Try a Worked Example

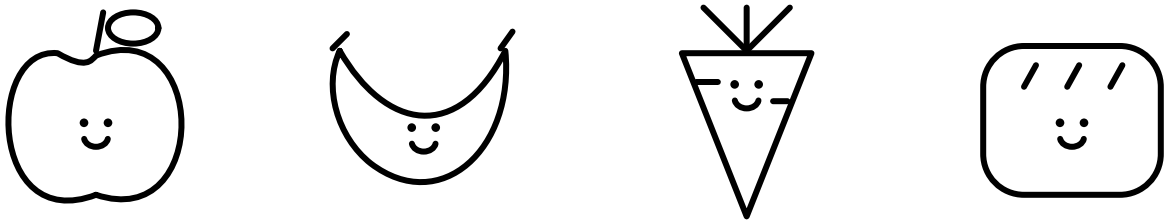

A pretend roll costs 20¢. A pretend pear costs 30¢. Neither is a price tag for the later missions.

Total: 20 + 30 = 50¢. Pay 100¢. Change: 100 − 50 = 50¢.

Check the change by adding: 50¢ total + 50¢ change = 100¢ paid.

Three 20¢ rolls cost 20 + 20 + 20 = 60¢. You can use repeated addition instead of multiplication.

For the greatest number you can afford, test one more item. If three fit the budget but four do not, the answer is three.

Plan, Solve, Check

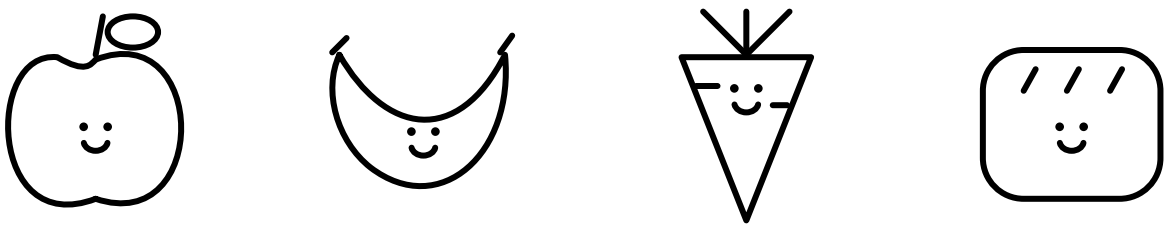

1. Look at the current shelf. Prices may change in each mission. Read the tags on your spread, not a previous one.

2. Read the quantity. TWO items at 40¢ each cost 40 + 40 = 80¢. A receipt line for both items is 80¢, not 40¢.

3. Write or draw your thinking in the box. Repeated addition is always welcome.

4. Check the explanation at the back when you are ready. Each spread has a Mission Complete star to color.

Teachers and parents: this is supplementary practice, not a complete or certified Grade 2–3 curriculum. Read together and adjust the pace to the child.

Your Market Map

Fruit & Veggie Stand: missions 1–4, pages 8–15.

Bakery Corner: missions 5–8, pages 16–23.

Dairy & Snacks: missions 9–12, pages 24–31.

Toy & Sticker Stall: missions 13–16, pages 32–39.

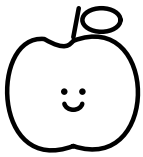

School Supply Counter: missions 17–20, pages 40–47.

Juice Bar: missions 21–25, pages 48–57.

Explained answer key: pages 58–107. Final celebration: page 108.

Mission 1: Shop & Solve

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

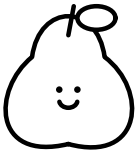

Apple
15¢ each

Banana
30¢ each

Carrot
50¢ each

Pear
85¢ each

Puzzle 1

Buy one apple and one carrot. What is their total cost?

MY ANSWER: _____ / THINK IT THROUGH

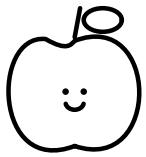

Puzzle 2

Buy the same two items for 65¢. Pay 100¢. How much change comes back?

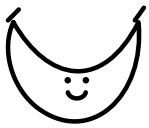

MY ANSWER: _____ / THINK IT THROUGH

Mission 1: Check & Finish

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

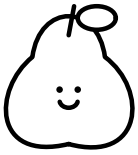

Apple
15¢ each

Banana
30¢ each

Carrot
50¢ each

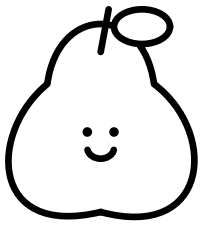

Pear
85¢ each

Puzzle 3

The receipt lists one banana and one pear. Fill in the total.

MINI-MARKET RECEIPT

Banana	30¢
Pear	85¢
TOTAL	**____¢**

Puzzle 4

Choose exactly TWO DIFFERENT items that cost 80¢ altogether. Write both names.

MY ANSWER: _____ / THINK IT THROUGH

_____

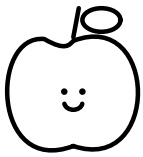

_____

MISSION COMPLETE

Color the star after checking both pages.

Mission 2: Shop & Solve

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

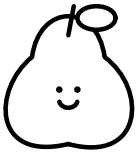

Apple
17¢ each

Banana
32¢ each

Carrot
52¢ each

Pear
87¢ each

Puzzle 5

Buy one apple and one carrot. What is their total cost?

MY ANSWER: _____ / THINK IT THROUGH

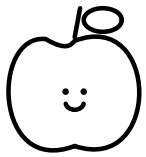

Puzzle 6

Buy the same two items for 69¢. Pay 100¢. How much change comes back?

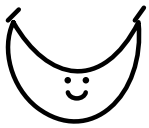

MY ANSWER: _____ / THINK IT THROUGH

Mission 2: Check & Finish

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

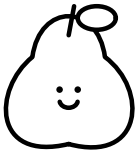

Apple
17¢ each

Banana
32¢ each

Carrot
52¢ each

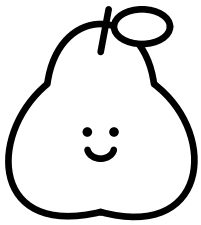

Pear
87¢ each

Puzzle 7

The receipt lists one banana and one pear. Fill in the total.

MINI-MARKET RECEIPT

Banana	32¢
Pear	87¢
TOTAL	**____¢**

Puzzle 8

Choose exactly TWO DIFFERENT items that cost 84¢ altogether. Write both names.

MY ANSWER: _____ / THINK IT THROUGH

_____

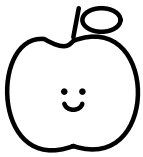

_____

MISSION COMPLETE

Color the star after checking both pages.

Mission 3: Shop & Solve

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

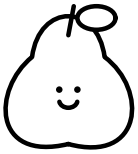

Apple
19¢ each

Banana
34¢ each

Carrot
54¢ each

Pear
89¢ each

Puzzle 9

Buy one apple and one carrot. What is their total cost?

MY ANSWER: _____ / THINK IT THROUGH

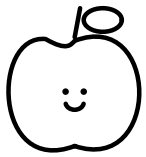

Puzzle 10

Buy the same two items for 73¢. Pay 100¢. How much change comes back?

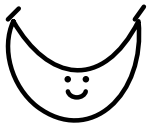

MY ANSWER: _____ / THINK IT THROUGH

Mission 3: Check & Finish

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

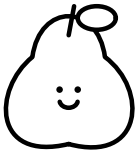

Apple
19¢ each

Banana
34¢ each

Carrot
54¢ each

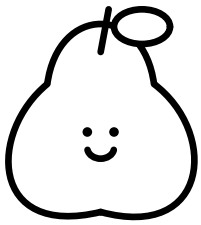

Pear
89¢ each

Puzzle 11

The receipt lists one banana and one pear. Fill in the total.

MINI-MARKET RECEIPT

Banana	34¢
Pear	89¢
TOTAL	**____¢**

Puzzle 12

Choose exactly TWO DIFFERENT items that cost 88¢ altogether. Write both names.

MY ANSWER: _____ / THINK IT THROUGH

_____

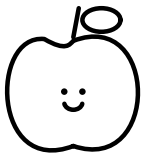

_____

MISSION COMPLETE

Color the star after checking both pages.

Mission 4: Shop & Solve

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

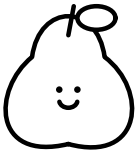

Apple
21¢ each

Banana
36¢ each

Carrot
56¢ each

Pear
91¢ each

Puzzle 13

Buy one apple and one carrot. What is their total cost?

MY ANSWER: _____ / THINK IT THROUGH

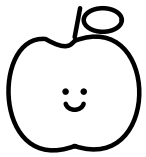

Puzzle 14

Buy the same two items for 77¢. Pay 100¢. How much change comes back?

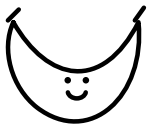

MY ANSWER: _____ / THINK IT THROUGH

Mission 4: Check & Finish

Fruit & Veggie Stand • Use this spread’s price tags. All prices include tax.

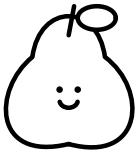

Apple
21¢ each

Banana
36¢ each

Carrot
56¢ each

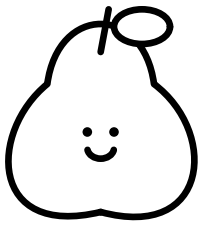

Pear
91¢ each

Puzzle 15

The receipt lists one banana and one pear. Fill in the total.

MINI-MARKET RECEIPT

Banana	36¢
Pear	91¢
TOTAL	**____¢**

Puzzle 16

Choose exactly TWO DIFFERENT items that cost 92¢ altogether. Write both names.

MY ANSWER: _____ / THINK IT THROUGH

_____

_____

MISSION COMPLETE

Color the star after checking both pages.

Mission 5: Shop & Solve

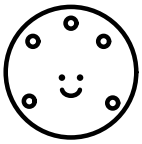

Bakery Corner • Use this spread’s price tags. All prices include tax.

Bread
23¢ each

Muffin
38¢ each

Cookie
58¢ each

Pretzel
93¢ each

Puzzle 17

One shelf holds 2 bread items and one muffin. What is their total value?

MY ANSWER: _____ / THINK IT THROUGH

Puzzle 18

Buy that shelf group for 84¢. Pay 500¢ ($5). Find the change.

MY ANSWER: _____ / THINK IT THROUGH

Mission 5: Check & Finish

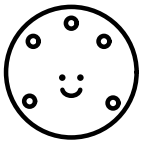

Bakery Corner • Use this spread’s price tags. All prices include tax.

Bread
23¢ each

Muffin
38¢ each

Cookie
58¢ each

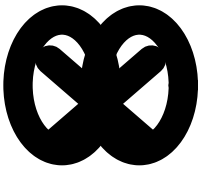

Pretzel
93¢ each

Puzzle 19

A receipt lists TWO cookie items and one pretzel. Total: 209¢. Find the combined price of BOTH cookie items.

MINI-MARKET RECEIPT

2 × Cookie	____¢
Pretzel	93¢
TOTAL	**209¢**

Puzzle 20

Basket A: one bread and one muffin. Basket B: one cookie and one pretzel. How much cheaper is Basket A?

MY ANSWER: _____ / THINK IT THROUGH

_____

_____

MISSION COMPLETE

Color the star after checking both pages.

Mission 6: Shop & Solve
